

RavenNuke(tm) v2.30.01 has been released!

2009-02-18 18:30:00 by Raven

RavenNuke™ v2.30.01 has been released on Wednesday, February 18, 2009. In addition to some 80+ bug fixes and annoyances, there are several security issues addressed.

In particular is one very serious exploit in the Captcha script. For anyone using a version of RavenNuke™ prior to this release (v2.30.01) it is imperative that you download and apply the fix patch from **[PATCHED FILE FIX](#)**

Download RavenNuke™ from [Raven Php Scripts](#)
