

NukeSentinel(tm) Development

2009-03-29 16:52:46 by Raven

Effective March 22, 2009 - NukeSentinel(tm) All future Development and Ownership of NukeSentinel(tm) has been transferred to Raven at <http://ravenphpscripts.com> .

For personal reasons, [Bob Marion](#) has requested that I (Raven) take the reigns for any/all future development of NukeSentinel(tm). The support has always been at <http://ravenphpscripts.com> so nothing changes there. I have always worked closely with Bob on the both the development and support of NukeSentinel(tm) so hopefully you will not really see anything too noticeable :)
