

RavenNuke(tm) v2.30.02 Security Fixpack has been released

2009-06-25 18:37:45 by Raven

A minor security Fixpack has been released. Please read the forum post [RavenNuke\(tm\) v2.30.02 Security Fixpack has been released](#) for the details.

Note that this upgrade is for RavenNuke(tm) v2.30.01 only. If you are not using RavenNuke(tm) v2.30.01 then you need to FIRST upgrade to v2.30.01 and then apply this fix.

The FULL release downloads for v2.30.02 (v2.30.01 with the Fixpack already applied) will be available soon. Until then, if you are installing v2.30.01 as a fresh install you will then need to d/l and install this fixpack also.
